Mission Statement: The Friends of Sheldon Jackson Museum is dedicated to supporting the Sheldon Jackson Museum and its unique Alaska Native ethnographic collection through advocacy, acquisition and educational programming.

PSA: For immediate release March 26, 2013

Can art find itself in science? Can science be found in art? Teri Rofkar, Tlingit Master weaver, will discuss her journey to demonstrate an answer during her creation of a robe, woven entirely of goat hair, bordered on each side by a double helix (DNA) representing the two populations of mountain goat that have been identified on Baranof Island. The lecture will take place in the Sheldon Jackson Museum gallery on April 6, 2013 at 1:00 p.m. This event will be the final lecture of the Friends of Sheldon Jackson Museum's winter lecture series.

The lecture is free and open to the public. For more information please contact Mary at 747-6233.
