1	As a children's librarian, I have specific needs that are different from a general librarian. The best and most valuable training I had was in Anchorage 8 years ago in September when they gathered all the children's librarians for 3 days to talk about what we do and learn from each other. Lots of valuable ideas were exchanged and we got to know each other. Also, we got to learn about what Anchorage libraries have to offer us who live far away. It was great. I would make time for that, if an opportunity like that came up again.	8/26/2015 10:50 AM
2	Our CE budget has taken a significant cut this year, so we pretty much focus on free online classes, and we must find grants for anything more than that.	8/24/2015 3:37 PM
3	I do not know what a CE course is.	8/20/2015 6:47 PM
4	While I do want to encourage staff to attend, we sometimes don't have the money. We also have staff attend webinars through Urban Library Council. I frankly don't pay as much attention to state CE. We are also busy and short handed now.	8/14/2015 7:17 PM
5	Don't always know they're happening far enough in advance to allow me to attend (at least one month).	8/11/2015 12:48 PM
6	Personal life conflicts.	8/11/2015 12:01 PM
7	Geographic location, not informed about courses and opportunities.	8/11/2015 10:26 AM
8	I live a subsistence life style and so all those tasks come first. Secondly I have to travel at least 2 hours one way and the weather has to cooperate. Mother nature has the final say about whether it is safe to travel or not.	8/9/2015 7:29 PM
9	The conferences are good but it is too hard for me to get away and I have a hard time retaining what I learned. I do better taking classes that take longer and I have to study and I can take the class at midnight because it is an online class.	8/8/2015 9:04 AM

2	I went on the state community profiles and saw that they had a mad of our local area and who owned which properties. I had no idea that this was available and I have been asked by patrons for this. I would like to know more about state information to share with users. I need help dealing with maps and recorder property info. Hunting information, and finding different resources for different types of maps. Printing the maps out in a readable format as well.	8/8/2015 9:34 AM
