

ATHABASCAN BIRCH BARK CANOE

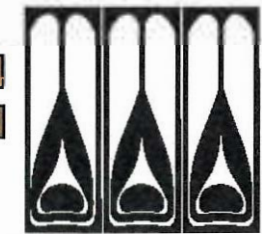

1. Color in the white ovals on the gunwale and the outside of the canoe (see other side).
2. Cut along the solid line around the whole canoe frame and cut the slits along the dotted lines to make tabs.
3. Gently crease along the curved edges of the bottom frame to shape the sides and bottom of the canoe.
4. Tape or staple the curved bow and stern from the tip down to the pointed tab.
5. Wrap the tabs around the sides of the bow and stern and tape to the bottom of canoe.
6. Cut out the strips at the bottom of this sheet and use to make 6 thwarts. Evenly space the thwarts across the top of the canoe and tape or glue to the gunwales.

6 Thwarts (crossbars):
